Bradford Greenhouses

Bradford Greenhouses, located in Bradford and Barrie is one of the largest greenhouse growers and retailers in central Ontario. From sun to shade, flowering to evergreen, shade tree to hedging, fruit tree to rose bush, Bradford Greenhouse Garden Galleries offers solutions for all gardeners. If you were to plant all the annuals Bradford Greenhouses has grown over their 40 years the Province of Ontario would almost be entirely covered.

Bradford Greenhouses has been partnered with Energy Source Canada since 2003. Taking advantage of buying and selling opportunities is an important way of saving over the long term with natural gas. "Energy Source has been very creative helping me identify and take advantage of the market," says Mark Warburton, Controller for Bradford Greenhouses.

Energy Source has used a variety of options for Bradford Greenhouse including fixed-term contracting, load balancing and hedging techniques resulting in very material savings.
